

National Groundhog Job Shadow Day

Mentorship Opportunity
February 2

National Groundhog Job Shadow Day is a nationwide initiative that encourages professionals to provide job shadowing experience for students. Inspire the next generation of professionals to pursue a career in construction and create public awareness of the hard work and economic contributions you make to your community.

Here are a few ways you can participate:

- Invite students to experience a day in your life shadowing you at your work environment.
- Arrange for students to tour a construction site with a local home builder.
- Host a question-and-answer session to discuss local career opportunities for students.

To learn more about how you can participate in National Groundhog Job Shadow Day, visit nahb.org/workforce.
